

# FORM 2A

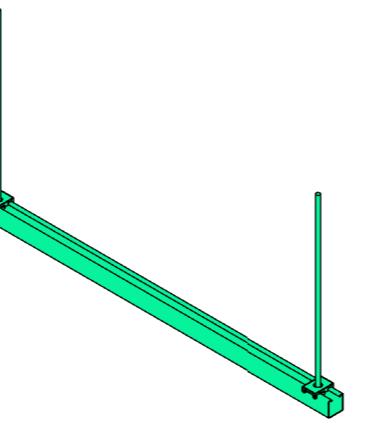

**1 | MCP - 4.1-1 - Section A**

SCALE: 1 : 15

**2 | MCP - 4.1-1 - Section B**

SCALE: 1 : 15

**3 | MCP - 4.1-1 - 3D ISO**

SCALE:

**4 | MCP - 4.1-1 - Floor Plan**

SCALE: 1 : 25

**NOTE:**

**FORM2A Production:**

Defines primary and secondary support component sizes, types and part numbers.

**Scope Exclusion:**

Building structure and frame interface auxiliary components (anchoring studs, clamps, rods, bolts or nuts) are not included in this document.

For comprehensive guidelines and additional information, contact the project management team.

DC.FWA-COR-4.1 - Bill of Materials						
Pos	Type	QTY	Part No	Length	Weight	Total Weight
1	Channel MS 41 41 2.0 6m	1	193747	1000 mm	2.00 kg	2.00 kg
2	Bloco PB 41 M10	2	160399		0.11 kg	0.22 kg
3	Threaded rod GST M10 1m	2	124568	500 mm	0.24 kg	0.48 kg

**OVERVIEW**

MC Prefab is a collaborative joint venture between CTS, MECWIDE, and BIMMS. The primary objective of this partnership is to streamline the production of Mechanical, Electrical, and Plumbing (MEP) support structures.

To achieve standardization and optimization in support production, installation, and to minimize material waste, a comprehensive catalog of solutions has been developed. This catalog defines all support solutions along with their respective variables.

**Process Stages:**

The overall process of MEP support structure production and installation is divided into three distinct stages:

1-Preparation

2-Production

3-Installation

Each stage requires specific documentation, outlined as follows:

**Form1A:** Base Specification for Support Solution Definition

**Form2A:** Fabrication Drawing

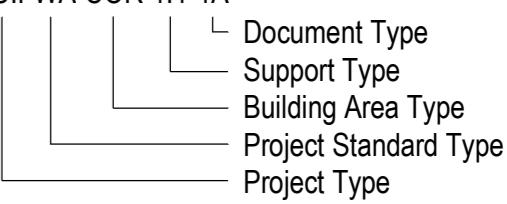

**Form3A:** Installation Drawing

These documents ensure the standardization and efficiency of the entire process, from initial preparation through to final installation.

For any further details or clarifications, please refer to the MC Prefab documentation guidelines or contact the project management team.

**Naming Convention**
